

**COMPUTATION OF UNEMPLOYMENT INSURANCE BENEFITS**  
 You have established a benefit year. This computation is based on wage information reported to the department by you and your employers for the base period **01/01/22** through **12/31/22**. This computation does not mean benefits are immediately payable to you. If an eligibility issue is still pending, you will receive a separate written notice regarding that issue. This computation shows the amount of unemployment insurance you may receive if you meet all eligibility requirements of the law. See the explanation on the back of this form.

Check this computation carefully. Was an employer left out? Is there any other error? If so, call a Claims Specialist on or before **06/01/23**. Remember to file your weekly claim for benefits every week after the week is over while you are unemployed or working reduced hours.

\*\* INDICATES WAGES USED IN PRIOR CLAIM AND CANNOT BE USED AGAIN

Your weekly benefit rate is \$ **80.00**

Total benefits payable equal 40% of total base period earnings or 26 times the weekly benefit rate, whichever is lower.

- a. 40% of your base period earnings: \$ **1542.00**  
 b. 26 times your weekly benefit rate of \$ **80.00** : \$ **2080.00**

This results in Total Maximum Benefits of: \$ **1542.00**
